

Nuvia

**MAKE A
SIMPLE, HEALTHY
SWAP TODAY**

Our mission is to create sugar-free and sugar-reduced products which taste as good as, if not better than, the sugary alternative.

Our preferred sugar substitute is the naturally sweet stevia plant from South America. We pick high-quality stevia leaves which taste just like sugar and lack any aftertaste.

Nuvia

SWEETENER

Nuvia Sweetener is a low-calorie sugar replacement created from the pure extract of the naturally sweet stevia plant. We only use high-quality stevia in our unique sweetener which has a clean, sugar-like taste. Our signature, great-tasting sweetener can be easily used in cooking and baking and complements tea and coffee perfectly.

Each serve (1.5 g) of Nuvia Sweetener is equal to the sweetness of 1 teaspoon of sugar making Nuvia a simple healthy swap if you want to replace sugar in your diet.

BAKING SWEETENER

Nuvia Baking is the first and only one-for-one sugar replacement designed for home baking.

Uniquely, it tastes, rises and browns just like sugar and has been tried and tested in over 90% of baked recipes. It acts as a direct replacement, so you simply swap out your sugar and swap in Nuvia Baking for the same result.

No other product acts as a direct replacement providing sweetness as well as rising, browning and bulking capabilities.
